

## Standard Rate Card

DCL Group's hourly rate card fees apply to call-out and maintenance works and the job is too small to warrant an estimator to route for the works. Our hourly rate is fixed and covers investigation time and any other time that may be needed to complete works. Our policy is that a minimum of 1 hour is charged on the hourly rate jobs and and the we charge by the half hour rate as the increases. If you require our tradesman to carry out an investigation on the job, and eventually decide not to go ahead, we will still charge for the time our tradesperson attended for.
